2016 Clean Water State Revolving Fund Project Evaluation Form - Planning

Part II - Project Description, Schedule and Cost

MassDEP understands that the purpose of undertaking a planning project is to try to identify the nature and extent of the water quality and public health problems, then to recommend solutions. At the planning stage, it may be unlikely that you have a good understanding of the situation. Consequently, not all of the criteria listed within the Project Evaluation Form may apply to your planning project. Please address all that apply and include a copy of relevant sections of any reports that you may have completed.

*** Planning Project Description:**

Please give this project a brief description that describes the project and its benefits.

(Identification of project area using site plan and/or locus map should be attached to the submission.)
