Hi there

I understand there is a hearing about Eldredge Park and I wanted to send an email of support for the project.

As a former Montrealer (now living in Boston with a house in Orleans), I remember coming here as far back as the late 60s and early 70s! Eldredge park was always a highlight and a wonderful place to spend time as a family when not at the beach - it has a special place in my memory and is always the true indicator of having arrived in Orleans when I drive by it after getting off at Exit 12 (I still can't call it exit 89!)

As a central aspect of our Orleans community, we should definitely undertake this project - it is a great way to continue to invest in our wonderful town and provide facilities for people of all ages. Specifically, many kids (such as myself and my two kids) will benefit from the improved park and these types of investments in the future of our kids is critical and much needed.

Please know I am in full support of the project and would be happy to engage off line if and as necessary.

Thank you both for all the work and effort you give to our town.

Sincerely,

Phil Tinmouth
